
IMPRESSIONS AFTER OUR MEETING WITH DR. TARIQ

Student Council Boys

It was an enriching experience hearing about life from someone who has so much experience in life. Dr. Tariq talked about all aspects of life, addressing all the negatives and highlighting all the positives. He also explained the importance of time management, something that we as students hear every day but tend to ignore, however, the way he spoke we will surely try to implement time management in our daily life.

When we met him we already knew that he was a person who had many roles in the society. Achieving so much in life is not easy to do but achieving that much and keeping your feet on the ground is a quality not a lot of people have. Dr. Tariq is one such person - humble and genuine. All said we had a very good time talking to him, we look forward for more of it in the near future.

We were fortunate to learn so much from him in such a short time. We were inspired by him and appreciate the time he took out for us.
